

RobotOps Analytics

The Smarter Way To Monitor & Optimise Your Robot Fleet's Performance

RobotOps Analytics is a powerful analytics tool that gives you greater oversight of the robots in your operation. Providing a simple, clear and fast way to monitor and identify gaps in performance, the tool helps you get the most from your fleet and increase productivity.

RobotOps Analytics monitors your fleet's performance in real time:

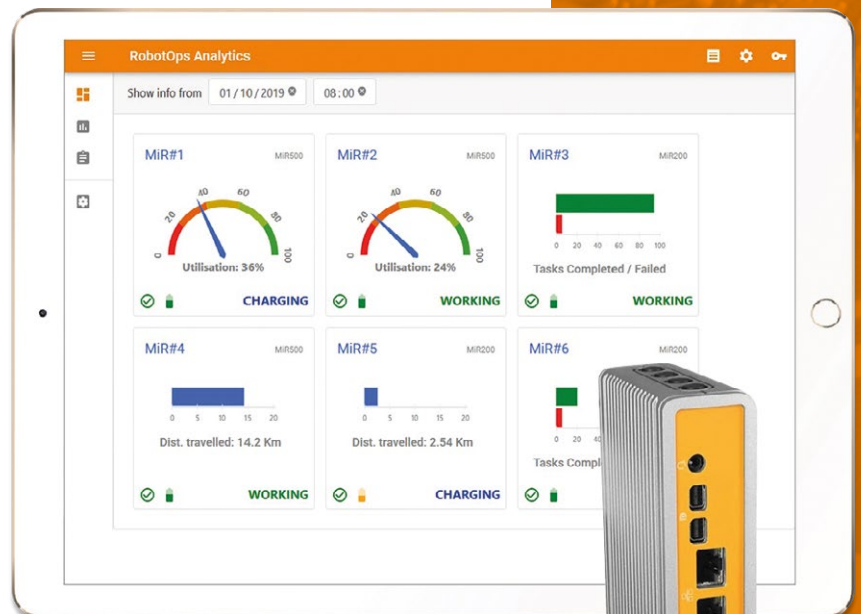

- Utilisation
- Task completion rates
- Distances travelled

Key Benefits:

- ✓ Identify unnecessary latency periods
- ✓ Detect and resolve operational bottlenecks
- ✓ Optimise your production cycles
- ✓ Improve overall efficiency and productivity
- ✓ Maximise return on investment of your fleet
- ✓ Start monitoring in just a few minutes

Key Features:

- Track and monitor your fleet in real time
- View insights via a user-friendly dashboard
- Analyse historical data for trends
- Download data via reports
- Access from multiple devices
- Install without the need for training

Models Supported:

MiR1000

MiR500

MiR200

MiR100
